

EUROPEAN ICE-BLOKART CHAMPIONSHIP 2009

NEWSLETTER No. 1

Because of the too thick snow on the lake Rėkyva European Ice-Blokart Championship 2009 is transferred to Nida, Curonian lagoon which has ice thickness of 24 cm. In the case of heavy snow which is not anticipated by nowadays forecasts or other reasons which can make Curonian lagoon ice unsailable we will use the possibilities to move east to find sailable ice. In that case pilots will be given a notice at latest till Thursday 13:00 pm (UTC).

Accommodation: our sponsor-hotel „Jūratė“ in Nida offers double room for the exclusive price to the participants of the event: 99 Lt (29 Eur)/night (w/o breakfast).

More various options on accommodation in private appartaments is to be found at:

www.kopos.lt

Please send us the notice about the need of accommodation in Hotel „Jūratė“ at info@irklakojis.lt.

Racing: if the conditions allow long track race format (2 or 3 laps) will be used. Race track and other information will be announced at the pilot briefing which will take place Saturday 10.30 in Nida yachtclub.

Registration: registration will take place on Friday and Saturday till 10.30 o'clock at Nida yachtclub.

Saturday evening Blokart party: 20.00 o'clock in restaurant „Seklyčia“. Blokart party fee is 50 Lt (15 Eur) which includes dinner, drink and SPA center with saunas and pool. Blokart party fee is not included in registration fee.

Outfit: it is recommended to have skiing goggles for the eyes protection, wind- and rainproof clothes. Helmets will be provided. Tape-measure is advisable.

Meeting points:

A tape-measure is a handful tool to quick-check the paralelity of the rear ice blades and to finetune them with toe-in adjusters if needed. Ice-Blokart with wrong paralelity is slower and produces more noise while sailing and it's ice blade tracks on the ice are not a „fine line,,.

The main rule: $A=B$, ± 1 mm.

LET THE WIND BLOW AND THE ICE SHINE!
